

# The Little

## Seed

Once upon a time, there was a little seed named Sam. Sam lived in a cozy garden with other friendly plants. One day, a kind gardener planted Sam in the soil.

Sam was a bit scared at first but soon discovered the warmth of the sun and the coolness of the rain. Every day, Sam grew a little taller and sprouted tiny leaves.

As time passed, Sam turned into a beautiful sunflower, reaching for the sky. The other plants cheered, and Sam realized that change can be an exciting adventure!
